

## Disabled Portable Toilet Hire

**Our disabled toilets offer more space for wheelchair access for your disabled attendees, and includes baby changing facilities, perfect when catering to large crowds!**

The barrier-free door and extra wide entrance allow for a comfortable experience with plenty of room to manoeuvre around. Extra handrail support is available in every toilet, and the occupancy indicator will keep unwanted callers at bay.

### Steph – Alzheimer's Society

"Get Loos provided us with portable toilets for several of our events this Autumn when we were struggling to find a suitable supplier.

They were able to quote within our budget which was fantastic. They are a friendly, prompt and informative team, thank you very much for your service!"
