

Event Single Portable Toilet

Our event portable toilets come with a cream and grey exterior, are lightweight, durable and have a secure locking mechanism to keep your private business, private!

The toilets are fitted with a single built-in hand sanitizer dispenser to keep bugs and viruses at bay. A popular choice for events, festival, markets and seasonal celebration events through the year.

Steph – Alzheimer's Society

"Get Loos provided us with portable toilets for several of our events this Autumn when we were struggling to find a suitable supplier.

They were able to quote within our budget which was fantastic. They are a friendly, prompt and informative team, thank you very much for your service!"
