

## Single Urinals

**The Single Mobile Urinal is easy to setup, transport, and thanks to its compact design, can be placed in confined spaces that traditional portable toilets might struggle to accommodate.**

Weighing just 10 kg when empty and measuring 1200mm in height, 390mm in width, and 330mm in depth, it offers a substantial 50-litre capacity. Perfect for a whole host of settings whether that's construction, events, markets, festivals and so on.

#### Steph – Alzheimer's Society

"Get Loos provided us with portable toilets for several of our events this Autumn when we were struggling to find a suitable supplier.

They were able to quote within our budget which was fantastic. They are a friendly, prompt and informative team, thank you very much for your service!"

## What you can expect from us
